

February 1, 2016

Special Meeting –

Mayor Cleveland and Commissioner Pence called the Special Joint meeting to order at 5:30 p.m.

Members of the Anthony City Commission present – Greg Cleveland, Jan Lanie, Jim Anderson, Howard Hatfield and Kenny Hodson Jr.

Members of the Harper County Board of County Commissioners – Carla Pence, Lee Adams (entered the meeting at 5:46 p.m.) and Brian Waldschmidt.

Others in Attendance – Barbara Muse, Mary Hixson, Rebecca New, Cheryl Adelhardt, Pat and Gerald Wolff, Greg Cleveland, Kenny Hodson Sr., Larry Berry, Steve Wilkinson, Jerry Turner, Amber Kummer, Gwen Warner, Grant Sechler, Melinda McCurley, Troy Carlson and Eric Smith.

Troy Carlson, Initiatives, Inc. presented information regarding the past history of his service to Harper County and the possibility of bringing an electrical generation facility to Harper County. The goal is to all work together for the betterment of the County and all of the citizens. Information is being gathered on how companies can comply with the Clean Power Plan. A feasibility study has been completed to determine possible locations of a plant within Harper County.

Discussion was then held regarding options on collaborating on a project and the electrical needs of the County as a whole, not just today but years to come.

Due to the fact that the City of Anthony has to sign a contract for their own electrical needs in the coming months, it might be too late to collaborate on a project. Troy will continue placing Harper County in the path of prospective developers.

The meeting adjourned at 6:45 p.m.

APPROVED

Carla Pence, Chair

ATTEST:

Cheryl Adelhardt  
County Clerk
